FYI – I raised this issue yesterday on the call with OW. It didn't take long.

**Subject:** Follow up needed - PFOA

Hi all,

I'd like to make a request for a follow up phone call to a gentleman I spoke with earlier today. His name is Bob Gorgon and he is from Petersburg. He originally reached out to me because he had some questions about how EPA came to our 100ppt recommendation in Hoosick Falls. He has some further questions that I think would be best addressed by you all about how the new long-term standard that EPA is developing relates to people who already have potentially had many years of prior exposure to high levels of PFOA. He also wanted to speak with us further about dermal and inhalation exposure.

He generally expressed frustration at the handling of the situation in Petersburg and would like to see an EPA presence there. His phone number is Ex. 6 - Personal Privacy Please let me know when you've had a chance to follow up with him. Thanks!
